## PRODUCT INFO

### Winwood Decksters

**Snack Run Inspired.** Sometimes you just don't want to wear your clipless shoes. You're only going to the mini-mart for a fountain soda and a lottery ticket and you want to wear your sneakers instead.

Introducing Decksters from Winwood. The industry's first everyday-use, clipless pedal platform.

These clever flats click easily into most brands of SPD-cleated pedals. Which makes them a convenient and cost-effective solution for the avid cyclist who wants to do some casual city riding. The long-lasting, sturdy body holds up under repeated use on bikes sold with clipless pedals.

#### Features

- Die-cast aluminum platform; 85mm by 95mm by 10mm thick
- Waffle patterned platform surface for grip with casual shoes
- Includes platforms and mounting hardware (cleats sold separately)
- Works with Shimano, TIME, EggBeater, Ritchey, Wellgo, and other SPD-compatible pedals
- Does not work with Speedplay cleats and pedals
- 248 grams per pair (not including cleats)
- MSRP **\$29.95**

PD1150
