# FOUNDRY AUGER

## 2012 Build Specifications

The Auger is a precision-crafted tool—engineered to maximize a riders cross experience. Rocks, roots, singletrack, dirt roads, wet grass, muddy hills and tight corners—throw anything at it, the Auger is up to the challenge and always comes back for more. Rigorously tested to ensure durability, the Auger is purpose-built: made to be ridden hard—every day. Intentionally understated devoid of splashy logos and loud colors, the Auger lets the rider do the talking.

### Details:

Weight: 1060g (60cm)
